- FILES SHOULD BE PREPARED WITHOUT BLEED DIVISIONS, CUTTING MARKERS ETC.

3. GRAPHIC PANELS PREPARATION SUPPORT

Any doubts or questions? Write to us:

office@cleverframe.com

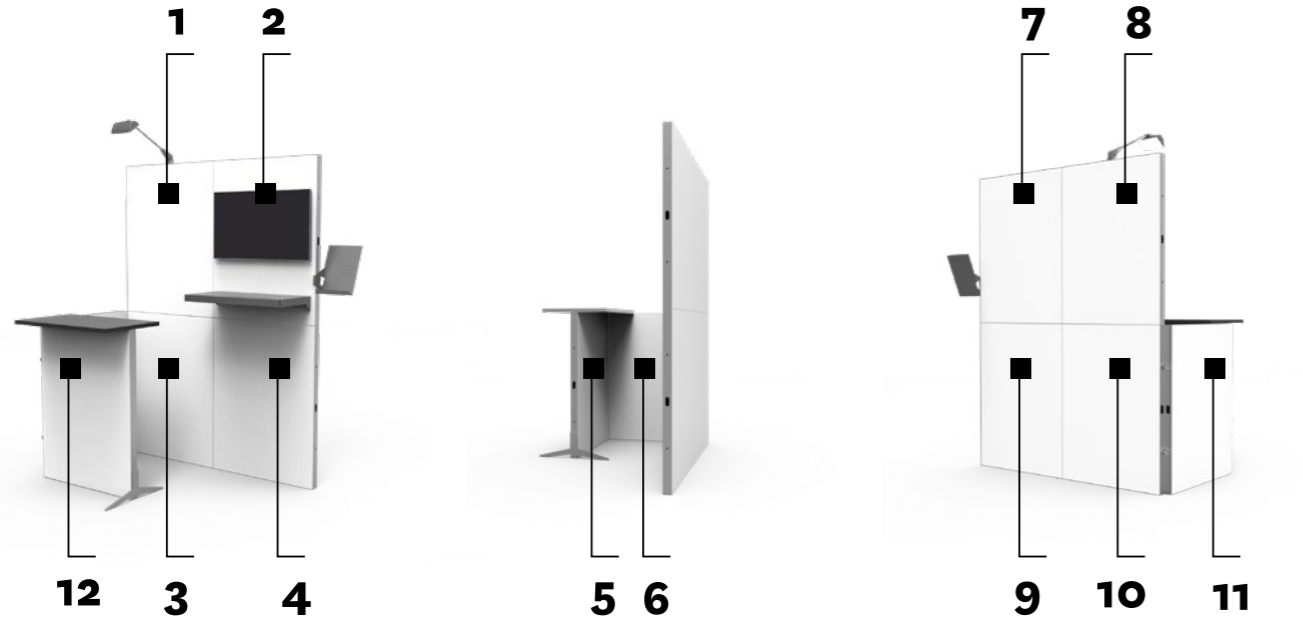

or contact your dedicated sales representative.

4. FILES SHOULD BE PREPARED WITHOUT DIVISIONS, CUTTING MARKERS ETC.

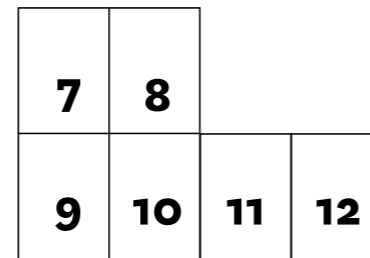

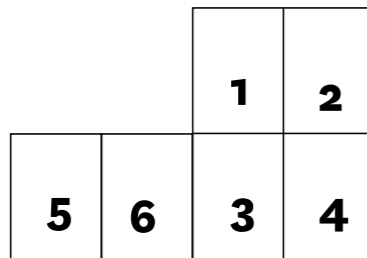

We ask for a thorough checking of the contents of the graphic files, as we do not take responsibility for incorrectly prepared graphic files. We ask to pay the utmost attention to typos, names, texts, size of the logotypes, protective field distances from the panel's rims and not to place important graphic elements on the crossings of the graphic panels.

3.

GRAPHICS FOR PROMO1 **START** AND PROMO1 **PLUS** PANELS

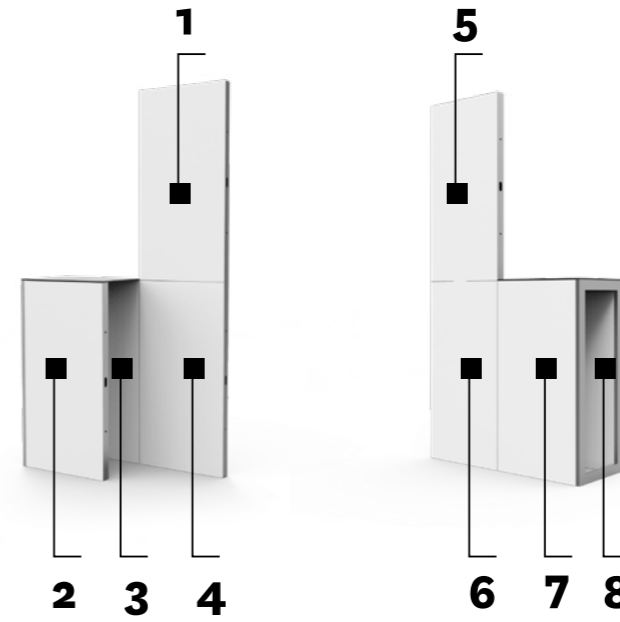

D1
100 x 75 cm

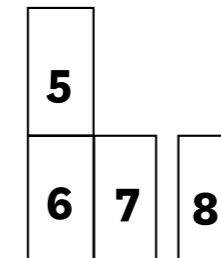

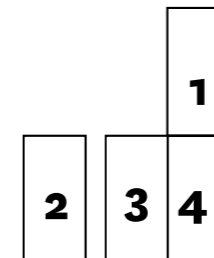

4.

GRAPHICS FOR **MINI** RPOMO1 PANELS

DC1.2
100 x 50 cm

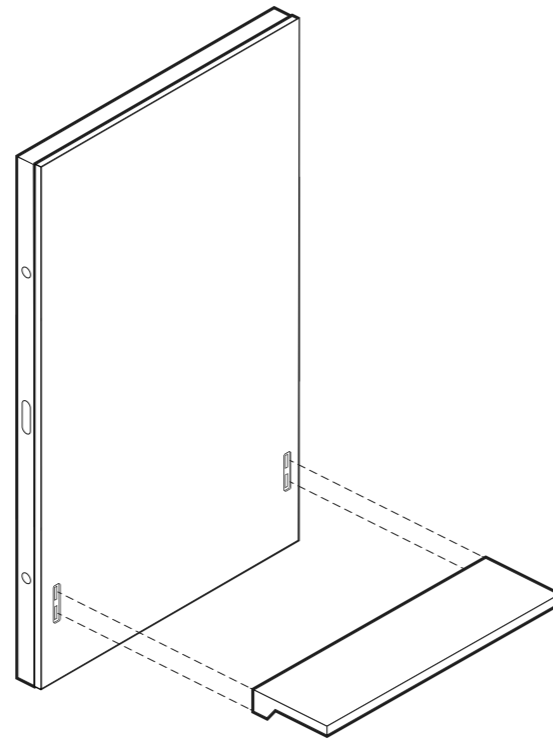

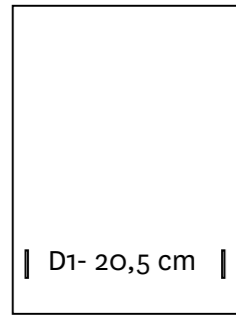

5.

GRAPHICS AND POSITIONING OF CLEVER FRAME® SHELVES

Two rectangular holes, size 8 x 89 mm are cut in the panels to assemble the shelf. Given heights show the distance between the plane of the shelf and the bottom edge of the frame.

FRAME D1/ 100x75 cm

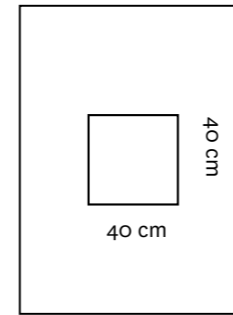

6.

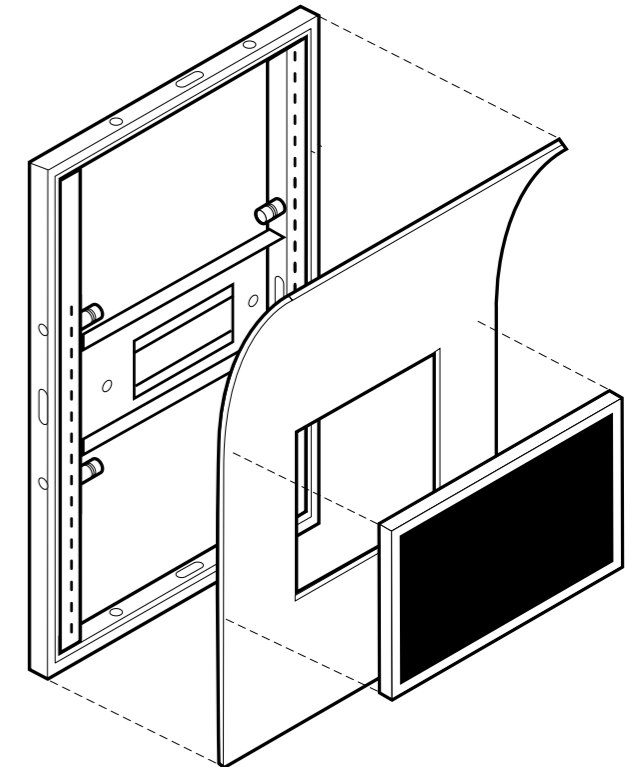

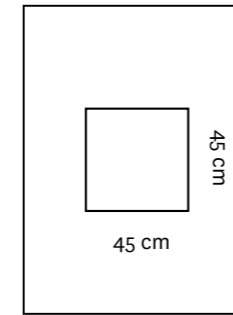

GRAPHICS AND POSITIONING OF THE TV HOLDER

The cut for the TV set is always centrally located, it depends on the size of the TV.
