netto

**PRODUCT FEATURES**

Mini Promo1 is a universal, mobile exhibition system with a light, high quality aluminium construction. With its help, you will build a functional and fully professional promotional stand that can be used repeatedly. Thanks to the exchangeable graphic panels, your modular exhibition stand may look different each time – it's a simple and effective way to promote your company, product or service.

According to the recommendations of our clients, Mini Promo1 is a system that successfully replaces traditional display stands, promotional and informational points.

What is important, at every stage of the contract you can count on the support of our graphic team and a dedicated concierge.
